

Electronic Filing for Nonprofits

Use 990Online

Web-based software for nonprofits to prepare IRS information returns developed by the National Center for Charitable Statistics (NCCS) to improve the quality of reporting.

Features

- User-friendly screens with checks on arithmetic and choices from drop-down menus
- Easy links to IRS instructions and tips from nonprofit tax experts for each line
- Ability to add Microsoft Excel files
- Generate an Adobe Acrobat PDF file to print or post on web site to comply with public disclosure requirements
- Electronic receipt from IRS

Quick, easy and free!

- Prepare Forms 990, 990-EZ and 8868 (Request for Extension). Mail or electronically file with IRS.

Save Money

- Reduce copying, filing, and storage costs.
- Free technical support and electronic submissions to IRS.

Save Time

- No special computer knowledge required. Much of the work of preparing Forms 990 and 990-EZ (and state registration forms) is done for you.
- No more mailing forms back and forth to the IRS. Just attach an electronic signature to the completed form and transmit via a secure web site to IRS.
- No more re-typing data from last year's return - data are automatically transferred from prior year.

Get Started Now

- Request a Login ID and password at (<http://Efile.Form990.org>). You will receive an email when your ID and password are activated.
- Follow instructions to complete the forms, authenticate the information, and e-file.

State Registration, Too

- E-file your state forms in Pennsylvania now.
- E-file in New York and Mississippi by May.
- Other states online later this spring.

Feel confident that your information is safe and secure.
